

# Care & Maintenance Guidelines

large format porcelain surfacing materials

Porcetalia Design Center  
3520 Peachtree Parkway  
Suwanee, GA 30024

## Regular Cleaning

Porcetalia requires very little maintenance to keep the surface looking like new. For everyday routine cleaning of Porcetalia we recommend wiping the surface with warm soapy water (a mild detergent) and a damp cloth.

As Porcetalia is virtually non-porous, it will keep its lustrous gloss and ultra smooth surface without polishing and it never needs sealing. Never attempt to polish the surface on your own, and avoid prolonged rubbing in one spot when cleaning.

## Food Preparation

We always recommend cutting on an appropriate cutting board and never directly on the Porcetalia surface to avoid blunt kitchen knives or damaging the surface of your bench top.

## Warranty Registration

Have you registered your Porcetalia 10 Year Limited Warranty Yet? Do it online to receive a Porcetalia Authenticity Badge which demonstrates the authenticity of your Porcetalia product.

## Heat Resistance

Porcetalia will tolerate exposures to hot temperatures, however prolonged direct contact with, or radiated heat from very hot pots can cause thermal shock, discolouration or damage. Therefore we do not recommend placing hot pots, pans, electric frying pans, oven trays, etc. directly from the hotplate or out of the oven onto the surface of Porcetalia. We always recommend the use of a hot pad or trivet to place hot items on.

## Chemical Resistance

As with any surface, Porcetalia can be permanently damaged by exposure to strong chemicals and solvents that undermine its physical properties. Do not use products that contain trichlorethane or methylene chloride, such as paint removers or stripper. Avoid any highly aggressive cleaning agents like oven cleaner that have high alkaline/pH levels. Under any circumstance, it is not recommended to use hydrofluoric acid solution or its derivative for cleaning. Should the surface be accidentally exposed to any of these damaging products, rinse immediately with water to neutralize the effect.

## QUALITY SLABS THAT COMBINE BEAUTY AND FUNCTIONALITY TO PERFECTION

We'd love to hear from you. For more design ideas, information, and applications of our porcelain surfacing materials, visit our website:
